

Frey Elementary Science Fair

March 13-14

Ready, set, start experimenting! This year's science fair will be held March 13-14 and we look forward to all of the interesting projects our creative scientists at Frey enter in the fair! Fill out the attached registration and return by Friday, February 24th. Registration forms may be submitted via email to Beth Conley at david.conley@bellsouth.net or placed in the designated Science Fair box in the mailroom. Please keep in mind that late registration will not be considered for judging during the fair.

Science Fair Dates: March 13 for grades K-2
 March 14 for grades 3-5

Time: Drop off projects between 7:15 and 7:50 AM in the Media Center. Do not bring your project to school before the day of the science fair. Judging begins at 8:00 AM.

The awards ceremony will be held Friday, March 16, at 8:30 AM in the Frey Cafeteria.

Helpful hints:

*Once you think of an experiment topic, phrase your title as a question. All titles must be presented as a question. Here are a few examples: Which kind of gum holds its flavor longest? Is the 5-day weather forecast accurate? The question should then be answered by the experiment.

*All measurements must be conducted using the metric system.

Rules and guidelines can be found on the Frey PTSA website, at www.freyptsa.com

SCIENCE FAIR REGISTRATION

Please Print Clearly

NAME: _____

GRADE: _____

TEACHER: _____

PROJECT TITLE (Titles may be changed before the fair, but must be stated as a question):

Application deadline: February 24.
